Summary

Self-motivated person, quickly adapting to new technologies, can work independently and with team. I have 1 year experience with manual testing, communication with clients and developers. Currently I'm focusing on web development and looking for a front-end development position to improve my current skills and make new ones.

Education

Vilnius Tech – Vilnius Gediminas Technical University

Bachelor's degree, Computer Software Engineering (2018 – 2022)

Experience

Junior Test Engineer

Unity Technologies, Vilnius (2021-06 – 2022-08)

- Communicating with customers about their reported software bugs/issues.
- Reproducing and documenting bugs for further tracking.
- Work includes collaboration with developers or other colleagues.

Projects

Notes app:

- Made with TypeScript, React, Material UI, Redux;
- Users can create/delete/sort/view their own notes;
- Ability to create new groups which can store notes created in the group;
- Responsive design, dark/light mode;
- Code can be viewed here: <https://github.com/ernestasdrun/notes-proj>

Portfolio website (still working on some sections):

- Made with TypeScript, React, Styled-Components;
- Responsive design, static website;
- "About" section is still under construction, "Projects" section needs some more projects and text added to it. Website is hosted here: <https://ernestasportfolio.netlify.app/> or view my code here: <https://github.com/ernestasdrun/my-portfolio-react>

Skills

Programming languages and skills: **JavaScript, TypeScript, Cascading Style Sheets (CSS), HTML5, React.js, GitHub, Redux.js, Node.js, Microsoft Visual Studio Code, Responsive Web Design**
